EDUCATION

Brahmdevdada Mane Institute of Technology

2020

Bachelor of Engineering

ACHIEVEMENTS & AWARDS

Abhivyakti 2020

TECHNO SUMMIT 2019

PROJECTS

Evoting through QR code

The objective of our work is to propose a real time capturing of a system using Quick Response code in a android smart phone.
In this method the concept of evoting application is created using an Android phone.
The authentication is done through scanning of QR code via mobile scanner
Futher voter has to register using application and QR code will be provided when the admin has to accept the voter based on the voter details.
The main purpose of implementing this concept is to increase the voting percentage.
